Sustainability is not a single thing.

It is not a group of things or some certification. It is not a statement that we are sustainable. You don’t do sustainability, you are sustainable.

Sustainability is ingrained in our organization and is a part of the fiber of our existence. It is part of every decision we make, every process we execute, every product, every person, and every customer we serve.

At Seaman Paper we tell our story and life of sustainability within our Soft Steps Forward Initiative. It is the story of how we manufacture high quality products while leaving only a positive effect on the environment, our customers and our community.

“Seaman’s achievements in advancing their energy efficiency are a testament to their perseverance and ingenuity, which are sure to lead to continuous improvement in years to come.” — Donna Harman, AF&PA President and CEO
